**Statement by Representative Rick Kriseman (D-St. Petersburg), House
Democratic Policy Chair
Regarding Republican Bills To Wipe Out Collective Bargaining**

“These attacks on public servants’ right to collectively bargain are nothing more than a thinly veiled Republican campaign strategy. I have serious questions about the constitutionality of this latest batch of Republican proposals to demonize hard-working Floridians, including teachers, police officers and firefighters. It seems to me that Republican legislative leaders are more interested in helping their candidates succeed than they are in helping Floridians prosper.”
